### Meeting Program

stakeholders and the public in the final course of the research? Will the project have an impact on the end-user?

15:35 - 16:05h Integration, communication, and dissemination (5' presentation and moderators: Katja Sonnenschein)

Guiding questions: Exploitation plan: What are the results and the methods we want to transfer? How we can transfer them and who could be the potential partners? How to encourage new forms of valorization associating several partners of the consortium (visits, publications, workshops? Other ideas? Academic communications? Meetings?).

16:05 - 16:35h Agroecological modelling (5' presentation and moderator: Elena Alter-IERMB)

Guiding questions: How are we approaching a systemic vision of agriculture developing a multi-scalar, multi-dimensional and multi-actor agroecological integrated modelling? Taking the analyses beyond plot level.

16:35 – 17:05h Living labs (5' presentation and moderator: Antonio Pescatore-UNIFI)

Guiding questions: To what extend the MA4SURE living labs comply with the official definition of living labs by the European Commission and how can be improved?

17:05-17:35h General discussion themes (5' presentation and moderator: Dr. Saber SEKEM):

Guiding questions: How can we promote the production of joint authorship involving multiple partners. Common research strategy and join scientific publication calendar.

17:35 – 18:00 Questions and Conclusions of the Spring Project Meeting

18:00 h Return to Florence

20:00 h MA4SURE project dinner

### End of the program
